Projects

Divvy Kiosk Enhancements: https://renukaaundhekar251.wixsite.com/portfolio/divvy-enhancements
- Redesigned a Divvy kiosk based on user research in a group project of three.
- Activities performed- user research, conceptual design, personas and creating prototypes which went through iterations and testing at every stage. Post finalizing the design, interactive hi-fi prototypes were created. Outcome of the project was pleasing Kiosk experience for new or current users who need to use the kiosk in order to complete the bicycle rental process.
- Here I learnt and followed the UX design process and technologies used were Axure RP, Illustrator.

Safeable: https://projectsafeable.wordpress.com/
- Designed an application named, 'Safeable'. It is a multi-platform smart-map application that can be accessed via car display screen, mobile and smartwatch. It reduces the number of interactions of the user with the application by suggesting draft messages to incoming calls, voice recognition and traffic delay alerts. Application also syncs with the calendar to store travel plans.
- Activities performed- Developed lo-fi and mid-fi prototypes, personas and scenarios. Conducted user testing and based on our findings we created interactive hi-fi prototypes.
- Technologies used Axure RP, Invision, Adobe Photoshop.

Experience

Aretove Technologies India Pvt. Ltd. - Pune, India	Web Design Intern	Feb'16-Jun'16

- Designed creative posters, flyers and social media posts that contributed in marketing and branding on social media platforms. Provided high quality images for web development and marketing team.
- Technologies used HTML5, CSS3, Adobe Photoshop and Illustrator.

Design Incubator Research and Development Labs, Pune	Coordinator	May'13-Jul'13

- I was working here as a coordinator for UX/ UI Training Programs.
- Conducted Promotions for training courses on social media platform.
